

ON/OFF TRACTION

**Toyo M-506Z Lug**

LSP CODE: 087-282-XX | 087-283-XX

10.00R-20/16	11R-22.5/16
11R-24.5/16	12R-22.5/16

- Special compounding and advanced design fights heat and stress to extend casing life
- Deep tread provides excellent traction in both wet and dry conditions
- On/off road drive application only
- 30/32" tread depth

ON/OFF TRACTION

**Toyo M-503Z**

LSP CODE: 087-285-XX

11R-22.5/16	11R-24.5/16
-------------	-------------

- Wide belt construction and a solid stable outer rib contribute to long, even wear
- Deep tread design provides excellent traction in both wet and dry conditions
- Deep lug tread provides top performance on muddy, slippery and abrasive surfaces
- On/off road drive application only
- 26/32" tread depth

ON/OFF TRACTION

**Ohtsu CI-627**

LSP CODE: 071-263-XX

11R-24.5/16	
-------------	--

- Severe duty, extra-high traction radial with super rugged design and materials
- Drive axle application
- Deep, wider tread pattern
- Taper cut shoulder profile enhances stability
- 31/32" tread depth

ON/OFF TRACTION

**Double Coin RL8800**

LSP CODE: 009-259-XX

11R-22.5/16	11R-24.5/16
-------------	-------------

- Chip, cut and abrasion resistant tread compound for casing durability and extended original tread life
- 4 steel belts built in to resist cuts, impact breaks and tears
- Open lug/void ratio provides excellent traction for severe off highway usage
- 29/32" tread depth

Vortex Bias HWY

LSP CODE: 020-205-XX

8.25-20/14	9.00-20/14
10.00-20/16	12.00-24/18

- 5-rib highway tread design
- 2 cap plies, 6 body plies, and dual bead construction for extra strength and durability
- Re-treadable and re-groovable
- 17/32" tread depth

BIAS PLY

**Vortex Bias Trac**

LSP CODE: 020-206-XX

8.25-20/14	9.00-20/14
	10.00-20/16

- Durable all-purpose lug tread design for added traction
- 2 cap plies, 6 body plies, and dual bead construction for extra strength and durability
- Re-treadable and re-groovable
- 17/32" tread depth

BIAS PLY

**Tireco Deep Lug M779**

LSP CODE: 061-226-XX

	10.00-20/14
--	-------------

- Extra strong nylon ply construction
- Designed for heavy use
- Waste hauler traction tire
- 34/32" tread depth

BIAS PLY

ON/OFF TRACTION

**Michelin XDE A/T**

LSP CODE: 050-255-XX

11R-22.5/16

- Deep tread, high traction drive tire designed to optimize performance of vehicles operating in mixed applications
- Extra-wide tread designed to reduce sidewall vulnerability, extend tread life and improve traction and handling
- 4 belt crown package with extra wide working plies help deliver exceptional casing strength
- 30/32" tread depth

ON/OFF TRACTION

**Michelin XDY2**

LSP CODE: 050-285-XX

11R-22.5/16	11R-24.5/16
-------------	-------------

- Drive-axle radial truck tire designed for on/off road service in highly aggressive conditions
- Tread compound helps resist cutting, chipping and chunking
- Directional self-cleaning tread combined with deep lateral shoulder grooves aid water dispersion to enhance wet traction
- 30/32" tread depth

ON/OFF TRACTION

**Michelin XDY3**

LSP CODE: 050-400-XX | 050-401-XX

11R-22.5/16	11R-24.5/16
315/80R-22.5/20	

- Designed for exceptional traction and wear in mixed and severe on/off road service
- Cut and chip resistant tread compound
- Maximized traction in soft soil through massive, open lateral shoulder grooves
- 31/32" tread depth

**WHY POWDER COAT?****INCREASED SAFETY**

The powder coat refinishing process allows for detection of faulty wheels so they can be removed from service before they cause serious problems.

INCREASED RIM AND TIRE LIFE

Rusted and worn wheels can wear on the bead areas of your tires. A powder coat finish creates a smooth area for the tire bead and is superior in appearance.

SAVE ON FLEET OPERATING COSTS

The like new finish lasts up to 40% longer than traditional paint finishes and decreases possible downtime from repairs.

VERSATILITY

The Les Schwab facility can powder coat a variety of wheel styles and accommodates sizes up to 18" wide and 28" in diameter. We can also powder coat aluminum wheels.

STANDARD COLORS AVAILABLE

FIRE ENGINE RED	CF RED	KUBOTA ORANGE	CAT YELLOW	BALTE YELLOW	ALMOND
MET BLUE	POSTAL BLUE	METALLIC SILVER	GREY	GLOSS BLACK	WHITE
